E-News Letter

April 2026

Students' new academic sessions commenced on 6th April. Students resumed their respective classes and got engaged. Some students were promoted to a different unit as per their age bar.

Pre-Primary Units have most of the table-top activities, concept building, along with a recreational craft class.

The Senior Unit offers a variety of functional academic and sensory classes tailored to meet the needs of the students. Additionally, art and craft classes are held simultaneously for those who have a talent and interest in the arts.

Computer classes run as per the class routine of different classes.

Senior classes have more of the constructive ADL to blend into their programme.

Play is an integral part of students' IEP for all units.

The playground is most crowded with free play after launch.

Occupation therapy is a key area elaborately done with students using sensory swings, tunnel rolls, balance beams, and gait training. Physiotherapy was conducted simultaneously. Sensory exposure with bubble tubes, texture tubs, and a calming corner go hand in hand with therapy.

The Foundation Day celebration took place on April 11th, marking the 20th anniversary of the first phase of the school inauguration. This year, we held a webinar themed 'Beyond School... What Next?', featuring Mrs. Indrani Basu, the Director of ASWB, as the resource person. The event saw a great turnout from parents and was highly interactive and informative.

Tea Packaging is the most independent vocational unit where students operate it completely.

Garden of April...
